

Performance has a new style

Philips Respironics Wisp – minimal contact nasal mask

Wisp's clever **auto seal groove technology** accommodates your patient's every move, for a **superior seal** and a **great night's sleep**

For the medical professional...

- Wisp combines the performance and comfort of a nasal mask with the minimal design of a pillows mask – helping you to support patient acceptance.
- During our ease of use studies, Wisp was preferred over the leading nasal and pillows masks for fit and seal, ease of assembly/ disassembly and ease of patient set up – making life simpler for you.
- With all three cushion sizes in the one pack, Wisp aims to simplify inventory management – saving you time and money.
- With its minimally invasive design and exceptional seal, Wisp is designed to deliver the comfort and performance your patients deserve.

For the patient...

- During our preference study, patients said they had a better quality of sleep and experienced a greater level of comfort and seal compared to other leading nasal and pillows masks.
- Wisp comes in a clear unobtrusive silicone frame, or a soft and pliable fabric frame – the choice is theirs!
- Available in three sizes that comfortably fits over 98% of patients – Wisp combines comfort, ease of use and style for a better night's sleep.
- An open field of vision for greater independence – your patients can read, watch TV and even wear glasses before they go to sleep.
- A minimal part count and click fit headgear clips make Wisp easy to use and maintain – letting your patients spend more time doing the things they enjoy.
